

NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910-3226.

Relevant written comments about this request should be submitted to the above address on or before May 22, 1995.

FOR FURTHER INFORMATION CONTACT: Ann Hochman, 301/713-2289.

SUPPLEMENTARY INFORMATION: Enoshima Aquarium, Kanagawa, Japan, is requesting authorization for the export of two nonreleasable rehabilitated female California sea lions (*Zalophus californianus*) for the purpose of public display under the Marine Mammal Protection Act of 1972 (MMPA), as amended (16 U.S.C. 1361 *et seq.*).

The permanent retention or export for public display purposes of a beached or stranded marine mammal taken for the purpose of rehabilitation under section 109(h) of the MMPA must be authorized by NMFS. Under the 1994 amendments to the MMPA, in order to obtain any marine mammal for public display purposes, the recipient must: (1) Offer a program for education or conservation purposes that is based on professionally recognized standards of the public display community; (2) be registered or hold a license issued under 7 U.S.C. 2131 *et seq.*; i.e., from the Animal and Plant Health Inspection Service (APHIS), U.S. Department of Agriculture (or, for foreign facilities, meet comparable standards); and (3) maintain facilities for the public display of marine mammals that are open to the public on a regularly scheduled basis and to which access is not limited or restricted other than by charging of an admission fee.

In this regard, the required certifications and statements provided by the Enoshima Aquarium and the Japanese Fisheries Agency have been submitted to NMFS and APHIS, and have been found appropriate and sufficient to allow consideration of the request.

Dated: April 17, 1995.
